

# Questions On Gradients 2

1. Point A = (4, 2), Point B = (6, 8).  
Find the gradient of line AB.
2. Point A = (2, 3), Point B = (4, 7).  
Find the gradient of line AB.
3. Point A = (-2, 2), Point B = (2, 6).  
Find the gradient of line AB.
4. Point A = (8, 4), Point B = (6, 8).  
Find the gradient of line AB.
5. Point A = (4, 6), Point B = (5, 0).  
Find the gradient of line AB.
6. Point A = (5, 3), Point B = (9, 5).  
Find the gradient of line AB.
7. Point A = (9, 4), Point B = (11, 1).  
Find the gradient of line AB.
8. Point A = (4, 0), Point B = (12, 8).  
Find the equation of line AB.
9. Point A = (3, 7), Point B = (9, 4).  
Find the equation of line AB.
